## KZ POWER DIESEL GENERATOR SETS

Relentless, powerfull, strong and ever-lasting are the attributes of KZ POWER generating sets. Capable of power generation from 10 to 2500 kVA, these power units are manufactured with top quality components. They run extreme testing and inspection measures to assure adherence to industrial standards and customer satisfaction.

### Engines

Water cooled, heavy industry type, 4-stroke diesel engines with fuel consumption efficiency. Built to comply with ISO and DIN standards

### Control Panels

KZ Power control panels are automatic mains failure panels (AMF panels) using sophisticated microprocessor circuitry to monitor both the overall generator and engine performance.

### CE & ISO 9001

KZ Power's range generating sets complies with the CE & ISO 9001 marking, which includes the following directives:

- 2006/42/EC Machine safety.
- 2006/95/EC Low voltage.
- 2004/108/EC Electromagnetic compatibility.

### Alternators

Brushless, single bearing, class H insulated alternators equipped with AVR for optimum performance.

### Sound Proof Canopy

KZ Power canopies are: Weather proof, Robust and modular design, High attenuation capabilities, Lowest life cycle cost, Vibration free, Easy monitoring window, User-friendly (low maintenance), Eco-friendly, Self ventilated

### Spare Parts

KZ Power spare parts concept is based on tailored solutions for our customers. Flexible production departments and security stocks guarantee short delivery times for all types of engines.
